

engaging the attention of the Government of India and the Intermediate Ports Committee.

**Dr. R. NAGAN GOWDA.**—With reference to answer (a), may I know whether that expenditure would make it an all-weather port and if so, on account of the increase in the export almost by 500 per cent in the last three years, would the Government of this State take steps to see that this expenditure of Rs. 31½ lakhs is advanced by a year and the work started soon?

**Sri T. SUBRAMANYA.**—Today, we are handling about 1,32,000 tons of cargo in that Port. We are anxious to provide all facilities. Now we are waiting for the Report. We will spend about Rs. 30 lakhs and odd to improve the wharf and other things there which are not included. It will not be a waste if it is converted into an all-weather port or a major port.

**Dr. R. NAGAN GOWDA.**—May I know whether they would advance this work by one year and start it in 1960-61?

**Sri T. SUBRAMANYA.**—It would not be possible because it is not provided for. It has to be started in the Third Five-Year Plan.

**Sri G. SIVAPPA.**—May I know whether the State Government and the Government of India have done any work in the First and Second Five-Year Plans for the development of this Port or any other Port in the West coast?

**Sri T. SUBRAMANYA.**—All that was necessary has been done to some extent.

**Sri G. SIVAPPA.**—What is it that you have done?

**Sri T. SUBRAMANYA.**—With regard to other ports, I am not able to tell you to day.

**Sri C. K. RAJIAH SETTY.**—The Hon'ble Minister was pleased to say that this Government was pressing to take the major ports. Is it not a fact that different sections are influencing the Central Government to take different ports and therefore this is delayed?

**Sri T. SUBRAMANYA.**—I do not know what the different sections are doing. They have not come to me.

I do not know what cross-sections and cross-currents exist.

**Sri S. D. GAONKAR.**—Is it not a fact that the major portion of Mysore State forms the hinterland to this Karwar Port?

**Sri T. SUBRAMANYA.**—Yes.

### Conversion of Jayachamarajendra Combined Hospital at Arsikere into a General Hospital.

\*Q.—339. **Sri A. R. KARISIDDAPPA** (Arsikere).—

Will the Government be pleased to state :—

(a) whether they have received representation from the public of Arsikere requesting them to take complete control of the Jayachamarajendra Combined Hospital at Arsikere and to convert it into a general hospital;

(b) the action taken by Government thereon?

**A.**—**Sri K. K. HEGDE** (Minister for Health).—

(a) Yes.

(b) The question is being examined.

**Sri A. R. KARISIDDAPPA.**—May I know when this representation was received by the Government, Sir?

† **Sri K. K. HEGDE.**—October 1959.

**Sri A. R. KARISIDDAPPA.**—May I know from Government the procedure and principles to be followed for converting this combined hospital into a general hospital at Arsikere?

**Sri K. K. HEGDE.**—The first thing is the need for such conversion; next we will have to get the consent of the local bodies and their concurrence regarding their share of the contribution towards the maintenance and non-recurring expenditure as well.

**Sri A. R. KARISIDDAPPA.**—Is it not a fact that the Rotary Club of Arsikere has come forward to donate a sum of Rs. 30,000 towards the establishment of an X-Ray plant in that combined hospital?

**Sri K. K. HEGDE.**—Yes. I have asked them to purchase the plant. They have also offered to give a building to house the plant.

**Sri A. R. KARISIDDAPPA.**—May I know when the Government propose to establish the X-Ray plant there?

**Sri K. K. HEGDE.**—As soon as it is made available.

**Sri A. R. KARISIDDAPPA.**—The Hon'ble Minister was pleased to say that he received the representation some time in October. After that, did the Government get any report from the D.M.O., Hassan?

**Sri K. K. HEGDE.**—We have received that report and he says that it may be converted. We have yet to receive the consent of the local bodies to share their responsibilities.

**Sri A. R. KARISIDDAPPA.**—If the District Board or the Local body concerned agreed to meet their share of expenditure, will the Government consider the question of converting this combined hospital into a general hospital?

**Sri K. K. HEGDE.**—As the Hon'ble Member knows, the District Board is already constituted and it will be examined.

### Improving Cattle Wealth in the State.

\*Q. -357. **Sri ALUR HANUMANTHAPPA** (Nelamangala).—

Will the Government be pleased to state :—

(a) the steps they have taken to improve the cattle wealth in the State;

(b) whether they intend to provide a van to every Taluk Veterinary hospital to facilitate the Doctors or Stockmen to carry a mobile dispensary to every village;

(c) whether any steps have been taken to import good breeds of cows and buffaloes from other States of India;

(d) whether they propose to advance loans to the ryots from the Animal Husbandry Department to purchase the best cows?

**A.—Sri N. RACHIAH** (Minister for Agriculture, Excise and Social Welfare).—

(a) The following steps have been taken to improve the cattle wealth in the State :—

(1) The Department is running Livestock Breeding Farms in several parts of the State for the production of improved breeding cattle, sheep and poultry, enabling supply of quality bulls, rams and poultry besides hatching eggs.

(2) A network of Veterinary Hospitals and Dispensaries exist for safeguarding the health of the livestock inclusive of the 33 dispensaries being opened during the current year, the State will have 467 institutions at the end of 1959-60 which means one institution for every 24,913 heads of cattle.

(3) The Mysore Serum Institute attached to the Department manufactures all the biologicals required for combating the diseases of Livestock and conducts research on animal diseases.

(4) The following development schemes for the general improvement of the cattle wealth of the State are also in operation :

(i) Key Village Scheme.

(ii) Opening of Artificial Insemination Centres.

(iii) Distribution of breeding bulls and availing the facilities afforded by the National Dairy Research Institute for artificial breeding with Jersey bulls imported from U.S.A.

(iv) Poultry Development.

(v) Sheep Development.

(vi) Holding of Cattle Shows.

(vii) Cross Breeding Scheme in hilly and heavy rainfall areas.

(viii) Gosadans.

(ix) Rinderpest Eradication Scheme.

(b) No

(c) Yes.

(d) Yes, through Co-operative Department.

**Sri ALUR HANUMANTHAPPA.**—As this question relates to cattle wealth of this State on which our raiyats will have to depend for their prosperity and economic conditions, I request the Hon'ble Speaker to allow me to put a few more supplementaries, Sir.

Sir, you have been pleased to state in the answer furnished that there are several schemes for the improvement of the cattle-wealth in the State. You say that you have imported several breeds from other States of India. May I know from the Government what is the breed so far imported from other States of India? And in the interest of the future stepping up of milk supply, is it not quite essential that we have to import a large number of such improved breeds and supply proper bullocks to the District, Sir?

†**Sri N. RACHIAH.**—I would like to impress on the Hon'ble Member that to improve the cattle wealth, in the modern world, they have found out the method of artificial insemination; and we can within a very short time make arrangements to bring semen to improve our cattle wealth from any part of the country if not the world. Mostly we have been importing good breeds and out of that, we get semen particularly from the National Dairy Research Institute, and we actually distribute this semen to important centres, so that raiyats may take advantage of this semen to improve their cattle wealth.

**Sri ALUR HANUMANTHAPPA.**—You have said that no van facilities are provided at hospitals. Is it not necessary to provide vans to the Stockmen or the Doctors to go round the villages to supply medicine and examine the health of the cattle of those villages?

(No answer)

**Dr. R. NAGAN GOWDA.**—In answer to (4) (iii), it is stated that they have been using Jersey Bulls, artificial insemination. May I know in how many towns in this State this sort of insemination has been carried out? May I know the places in the Mysore State outside Bangalore City wherein this has been done?

**Sri N. RACHIAH.**—This is a very complicated question. Whoever wants in the State, we are prepared to supply and we have been supplying semen to the raiyats for improving their cattle wealth. We are not actually supplying bulls. We are only distributing semen.

**Sri B. N. BORANNA GOWDA.**—Is there any proposal before the Government to start Semen Bank?

**Sri N. RACHIAH.**—We have got sufficient quantity of semen in the National Dairy Research Institute and we can supply any quantity.

**Sri ALUR HANUMANTHAPPA.**—You have said “No” to clause (d) of the question. Then which is the agency which is now working for the distribution of loans for the purchase of cows?

**Sri N. RACHIAH.**—There is some scheme sponsored by the Co-operative Department.

**Sri ALUR HANUMANTHAPPA.**—Is it at the district level or at the taluk level?

**Sri N. RACHIAH.**—At all levels. That scheme is being sponsored according to my information, by the Co-operative Department.

**Sri GAJANANA PANDIT.**—On what conditions do you distribute breeding bulls? Is the subsidy given to the man who works for the bull or has he got to pay a price? What are the terms?

**Sri N. RACHIAH.**—I have answered this question the other day. Generally we give subsidy to the extent of Rs. 500. Over and above that, the party has to pay.

### Starting of Polytechnics in each District of the State.

\*Q.—373. **Sri K. P. KARUMBAYYA** (Virajpet).—

Will the Government be pleased to state:—

(a) whether they intend to start a Polytechnic in every district of the State;

(b) when and where do they propose to start a Polytechnic in the district of Coorg;

(c) while locating the Polytechnic, will the Government consider the existence of a large number of High Schools round about the location;

(d) what is the proposed cost, non-recurring and recurring of such a Institute;

(e) for how many candidates is the proposed Polytechnic intended to provide training and in what branches?

**A.—Sri ANNA RAO GANAMUKHI** (Minister for Education).—

(a) Yes.

(b) From 1960-61, at Poonampet.

(c) Yes.

(d) (i) Non-Recurring	...	8.00

(e) 120 each year (60 in Civil, 30 Mechanical and 30 Electrical). Total intake capacity would be 360 on the basis of 120 per year in the three years' Diploma courses.

†**Sri ANNA RAO GANAMUKHI.**—In the answer to (b), there is some correction; the answer should be "from 1960-61, Poonampet is provisionally selected".

**Sri K. P. KARUMBAYYA.**—Is it not a fact that all the aspects of the question of allocating a polytechnic were examined by the Government and the decision taken to locate at Poonampet?

**Sri ANNA RAO GANAMUKHI.**—A provisional decision was taken because, this question is based on the report of the Deputy Commissioner and the Director of Technical Education has again to go through to see that all the facilities are available.

**Sri G. VENKATAI GOWDA.**—Is it not a fact that even in the Governor's Address it is mentioned that it has to be located in Poonampet?

**Sri ANNA RAO GANAMUKHI.**—That was done provisionally on the basis of the report of the Deputy Commissioner. The Director of Technical Education has to examine whether facilities like electricity, etc., are available.

**Sri ANNA RAO GANAMUKHI.**—This question does not arise out of this question.

**Mr. SPEAKER.**—Clause (a) is "whether they intend to start a Polytechnic in every district of the State."

**Sri ANNA RAO GANAMUKHI.**—That is so, in every district of the State. But the particular place and things of that nature are considered. Of course, the policy of the Government is to have a polytechnic in every district.

**Sri U. M. MADAPPA.**—Is it the intention of the Government that in every district, not more than one polytechnic is to be started, or more than one started?
